

**VISY**

## **SERVICE KIOSKS & APPS**

---

Self-service transaction checkpoints for terminal visitors.

## For smoother gate transactions

Visy Service Kiosks & Apps are self-service transaction checkpoints for terminal visitors. With driver kiosks, visitors can complete all formal tasks of terminal visits, including registration, identification, and safety & security training. Smooth transactions with Service Kiosks & Apps cut down visitors' time used at the gate area, therefore reducing operating expenses, and eliminating congestion in the gate area.

**Accelerates gate transactions**

**Reduces operating expenses**

**Clears liabilities for damaged containers**

The modular solutions contain a large selection of advanced features and equipment, including a wide range of RFID options, biometric readers, intercom devices, and ticket printing. External design, user interface, and functionalities of the solution are customizable to match customers' requirements and preferences. All applications and solutions are user-friendly with easy steps and instructions to keep the whole transaction journey as simple and efficient as possible.

**Service kiosks are build up of components based on customer requirements & preferences.**

**Safety & security training**

**Visitor identification & registration**

**Feeding terminal's workflow of arrived cargo**

**Information exchange to TOS and GOS**

## Applications & User interface

Visy Service Kiosks & Apps are self-service transaction checkpoints for terminal visitors. With driver kiosks, visitors can complete all formal tasks of terminal visits, including registration, identification, and safety & security training. Smooth transactions with Service Kiosks & Apps cut down visitors' time used at the gate area and the need for gate clerks, therefore minimizing processing time, and eliminating congestion in the gate area.

## Features

- Self-service kiosks for visitor access, registration, instructions, mandatory safety training, etc.
- Customized applications (UI appearance, external design) and flexible configurations
- Language options
- Identification tools: RFID, Biometric readers,
- Interaction tools: Intercom devices, Ticket printing, etc.
- Camera
- Display

Smooth transactions with Service Kiosks & Apps cut down visitors' time used at the gate area, therefore reducing operating expenses, and minimizing congestions.

**Decrease Truck  
Turnaround Time  
by up to  
60%**

**Automatically  
image and capture  
identifiers of cargo  
and vehicles**

**Centralized  
management of  
vehicles and assets**

**Globally local support**

**We deliver versatile automation solutions to create comprehensive identification and access control ecosystems.** Our product & solution selection for ports and terminals is wide to match the diversity of our customers' requirements and preferences, and to cover every part of the terminal where identification or tracking of containers, vehicles, and cargo is needed.

**Automated access control and container identification in every turn ensures a smooth traffic flow** and increases profits through enhanced operational efficiency. Our global high-quality partner network minimizes reaction time and our experience of three decades in the port and terminal industry guarantees top-class solutions and support worldwide.

**Implementation & delivery of our solutions is reliable without exception.** With our professional project management and skilled team, we deliver customized and demanding solutions designed to achieve the highest possible advantages of process automation.

## About us

Visy is a pioneer in optical character recognition (OCR), applied AI, and deep learning for camera-based automation solutions. Our expertise is based on over 25 years of experience in research and development of industry-leading technologies, and we have established a strong position as one of the top global vendors in gate automation and OCR solutions.
